AGM 2024

Monday 11TH November

5.00-6.00pm @ EBNC

We welcome nominations for two Committee member vacancies.
Enquiries and RSVPs at welcome at the Centre ph: 5150 2416

NOTICE OF SPECIAL RESOLUTION

The EBNC is hoping to become a Deductible Gift Recipient which allows us to accept tax-deductible donations.

For this we need to alter to our Constitution to include a "revocation clause". This ensures that, if the Centre is ever wound up, any unspent gifts or donations will be transferred to another similar charitable organisation.

This alteration (below) will be proposed as a Special Resolution at our November AGM.

Proposed clause be added to Section 76 - Winding up and cancellation

(5) If the organisation is wound up or its endorsement as a deductible gift recipient is revoked (whichever occurs first), any surplus of the following assets shall be transferred to another organisation with similar objects, which is charitable at law, to which income tax deductible gifts can be made:

- a) gifts of money or property for the principal purpose of the organisation
- b) contributions made in relation to an eligible fundraising event held for the principal
- c) purpose of the organisation
- d) money received by the organisation because of such gifts and contributions.

Omeo demo site paddock walk

 **28 October 2024** | Time: 11:30am – 1:00pm

 **Omeo trial site – 8930 Great Alpine Rd, Omeo, Victoria (near gravel pit)**

Please do not attend if you are unwell.

Seasonal update

Producers are invited to join Agriculture Victoria to discuss seasonal conditions and plans for spring and summer management. The 'Using soil moisture probes for seasonal preparedness' Producer Demonstration Site (PDS) was established in 2022 with funding from Meat & Livestock Australia and East Gippsland Shire, supported by Gippsland Agricultural Group. The project assists producers to make timely decisions using data from the Gippsland soil moisture probe network.

Agenda

Join us at Omeo to discuss:

- current seasonal conditions
- management considerations for spring and into summer
- data collected from the Omeo demonstration site so far, including pasture growth rates and urea and gibberellic acid trial results.
